

Folder #202

Bleed area: 548mm x 391mm
Extend your background and any images that overlap your trim to fill the full bleed area. This will make sure you don't end up with white edges when your job is trimmed.

Trim Size: 542mm x 385mm
Extend your background and any images that overlap your trim to fill the full bleed area. This will make sure you don't end up with white edges when your job is trimmed.

Safe area: 536mm x 379mm
Keep all the important elements of your design (text, logo and icons) inside this area, excepting your background and overlapping images as explained in the bleed area.
